

TOWN PLANNING APPLICATIONS WEEKLY LIST

Week Ending : 16 October 2011

CENTRAL AREA TEAM

(Covering the W1 area)

Planning Applications received by the council are set out below.

Some of the applications listed may be incomplete and further plans or information will be required before the application can be dealt with. Only once an application is valid will any of the submitted documents be published and available to view on our website www.westminster.gov.uk.

The Council welcomes comment from neighbours, amenity societies and residents groups as part of its consideration of planning applications and we recommend you do this online.

Please contact 020 7641 2513 or e-mail planninginformation@westminster.gov.uk for further information.

To find out more about how to comment, what happens to your comments and how the decision is made, please read the page overleaf.

Rosemarie MacQueen
Strategic Director Built Environment
Westminster City Hall
64 Victoria Street
London SW1E 6QP

The Planning Application Process and how you can have your say

How to comment

If you want to make comments that will be taken into account in determining an application they must be made in writing. This can be via the Council's web site or by letter sent to the address on the front page. Your comments will be acknowledged.

If you are unclear about what an application involves or need more information, the planning case officer will be happy to discuss the application with you. When we write to inform you of a proposal, you will normally have 21 days to comment.

What you can comment on

You can support or object to a proposal, but you should bear in mind that planning applications can only be decided on the basis of planning issues, such as:

- the effect on neighbours' daylight, sunlight or privacy;
- the impact of traffic, road access, parking and servicing;
- the appearance, bulk or height of the scheme;
- the impact on amenity such as noise generated by the proposal;
- the potential loss of a valued local service or use such as a shop or a residential flat.

The City Council cannot however consider non-planning issues such as:

- the effect on property values;
- competition between rival businesses;
- party wall disputes and fire escape matters;
- moral and religious issues.

Whilst the City Council cannot refuse a scheme because construction works may cause noise and disturbance, it can restrict the hours of work, particularly in residential areas.

What happens to your comments?

All comments received are acknowledged. The issues raised will be taken into account by the planning officer considering the application. This may lead to the officer contacting the applicant and suggesting amendments to the scheme.

If major changes are made, we will advise people who have commented and will normally give a further 14-21 days for additional comments to be made.

When applications are decided by a planning committee all comments received are made available to Committee and summarised in the officer's report which is available online at www.westminster.gov.uk/planning 5 days prior to the committee meeting. You will also receive a letter advising you of the date, time and location of the Committee.

How the decision is made

All controversial or sensitive applications are considered by the Planning and City Development Committee or one of the Planning Applications Sub-Committees.

The Planning Applications Sub-Committee normally meets every Thursday at 6.30 p.m. at City Hall. The Planning and City Development Committee will meet to consider major cases when necessary. The Committees are made up of elected Ward Councillors who receive a written report in advance of the meeting and make a decision after a presentation and recommendation by Council officers. All letters received are carefully considered before a final decision is made. The meetings are open to the public although the public cannot speak.

The Committees may grant planning permission (usually with conditions) or refuse it. Occasionally an application may be deferred for further information, negotiation or a site visit.

All straightforward and non-controversial applications are determined by officers under delegated powers. It is not possible to identify these upon receipt, as the results of public consultation may make an apparently simple application one which should be considered by a sub-committee rather than officers.

Everybody who has written to us about the proposal will be informed of the outcome within 10 days of the decision being made.

Address :	10 Seymour Place London W1H 7ND	Ward :	Bryanston And Dorset Square
Ref. No. :	11/09638/FULL		
Proposal :	Installation of full height extractor duct and low level fresh air intake duct to the rear of the property, and the installation of two air condenser units within an acoustic enclosure at rear first floor level.
